People told me Professor Walter is retiring after this semester, but I haven't asked him if this is true or not(crying). Reviews on RMP about him are totally fake, he is so kind and answers all my questions. Two midterms next week, still have to finish a 400 pages long ahh book in 7 days cuz cough cough I have other assignments. Have to wake up today around 6 so I can turn everything in on time. Sometimes I wish I were a genius and could figure everything out faster but I'm not. A periodic sleeper rn, crashing out.
