---

This happened yesterday but I got a little bit lazy and yes I do have to finish reading a book before this thursday. Boring ahhh crime and punishment, like bruh, pls add more freaky scenes or something interesting like Rodia gaining superpowers and conquering the world, I don't give a shit on how Rodia thinks, like the first few chapters of Introduction to quantum mechanics by Griffiths are more interesting than this book. Anyway, I was talking with Anja because I had some questions, and she was helping me solve them. When she solved it and started talking to me (we used a similar method but she went way ahead of me), she said, 'Jerry, who is reasonably smart...' Like bruh, what does that supposed to mean lol, what does it mean to be reasonably smart. Yes, I do have mixed feelings about this cuz it is from Anja, anything from Anja means something important.

No songs this week, well maybe Friday after I finish everything.
