

---

school starting soon, kinda excited ngl, ill be learning asl again. i dont think im worrying about my foreseeable future, i can always apply for master of arts in teaching at sbu consider i have a very decent gpa, well if i didnt get into grads. i want to stay in the us, one of my friend went to utoronto for his phd in biochem, and some went to uk for their master, but ill stay here, and no im not jealous, i actually hate going to an unfamiliar country (if i have to stay there for couple years).
