this will be the last one! i know i've probably said that a million times lol. i dont know where to begin, i mean i always had a rough idea of how this story will end, but i really didn't expect this. idk, idk why ppl i actually cared about always ended up running away with a girl, maybe it's my problem tbh, no it's definitely my problem.

I never talked about marie but i think ill do it now, was waiting so i could tell you in person, but i doubt it will happen. I met her in the psych ward, i was really depressed, turns out i'm a human being after all, and it really bothers me, the certain place you go, the certain person you talk to, it really bothers me. so what can i do, can't find an answer, i tried to kill myself, almost died, and ppl sent me to the hospital, severe enough that they locked me inside a psych ward. that was around october or november 2023 i remember. while i was there all i did was sleep or eat, like fr, she was the only one who tried to talk to me, but i did ignore her at the beginning - just not in the mood to talk to ppl. i mean i ignored my social worker and doctors too. shes 5 years older than me, an alcoholic, like can't live without alcohol. i know from the getgo that she just wanted to use me, but i went along with it. i do believe she saved me, in some way, made me want to get out and continue my life, without her i probably would still be in some hospital or wards. what she wanted from me? i think money, but mainly a place to stay, her parents left her alone after she graduated from high school but again i don't really know if thats true or not, i know she lies a lot. so after she got out, the first she did was steal alcohol from some random 711, until this day i still don't know how she pulled it off, but yeah she got drunk and did some really really really really really stupid things, i had to call an ambulance and send her to a nearby hospital, and then a rehab. And I believe around the end of 2023, I got a call from her saying she's out of rehab but is with a married woman who has 3 kids. vanessa i think, saying something like vanessa will be mad if we contact again, so yeah i ended the call immediately. idk, i wasn't sad or mad or anything, it's like im getting so used to it i cant even give a reaction anymore. do i love her? i don't think so, but i do care about her, or i did.

after i found your channel, i kinda get what you wanted to do, but at the same time not. idk i can be very stupid at times, like i really need ppl to tell me what they thinks, but i've been faith ever since then. I won't ask for your forgiveness, i don't think i deserve it or even need it atp, you are with someone else anyways. and pls, if you are reading this, do not ask for mine, i won't forgive you, ill never forgive you. i retract everything ive said too, they are meaningless and utterly stupid if i still hold them. I will start forget everything now. you know whats funny, everything makes so much sense to me when i told myself, stop, stop everything you are doing now, shes in high school just a kid, so

shut the fuck up and be an adult. why is it so difficult.

I feel like im finally freed today, from my own cage, i should feel happy no? no, not even slightly, but ill stop, a shitty story i know, maybe just my perspective.
